**RE: Price Increase announcement**

Effective January 1, 2021 and where contracts allow, BP will increase off-list prices in the Americas region as follows:

<b><u>Product</u></b>	<b><u>US / Canada Increase</u></b>	<b><u>Mexico / South America Increase</u></b>
Acetic acid**	\$0.025 / lb.	\$55 / MT
Acetic anhydride/acid 60/40	\$0.025 / lb.	\$55 / MT

*\*\*Acetic acid blends with water will increase proportionate to the acetic acid content of the blend*

These increases are necessary due to continued high raw material costs and increasing logistics costs. Please reach out to your Regional Sales Manager if you have any questions. We value your business and look forward to continuing this relationship into the future.

Sincerely,
